

## PROVIDER RESOURCE MANUAL

Dear Participating MVP Provider:

Please review the most current version of the MVP Health Care® *Provider Resource Manual* (PRM).

Updates include revisions on operational procedures, plan type offerings and clinical programs. The PRM is available online when you log in to MVP's secure web portal for providers by visiting **mvphealthcare.com**, *Sign-In* to your account, then go to *Resources*, then *Provider Resource Manual*.

The manual is designed to serve as a reference tool for participating providers and facilities. Its purpose is to enhance and reinforce the understanding of the roles and responsibilities of participating MVP providers. In turn, this will help ensure that patients' needs are met within the health care coverage provided by their MVP Health Benefits contract.

This manual will be amended as MVP's operational policies change. For the most current version, visit **mvphealthcare.com**.

Thank you for your participation with MVP Health Care.

Sincerely,

A handwritten signature in black ink, appearing to read "K. Austen", with a long, sweeping horizontal line extending to the right.

Karla Austen

Executive Vice President of Network Management
