

## Global Edit Updates

MVP Health Care® (MVP) utilizes the Change Healthcare *ClaimsXten*™ for clinical editing updates. Currently, when the following modifiers are appended to the claim in the first position, the global edit will be bypassed and the claim will be paid.

00	0G	92	AP	AT	AU	AY

EP	ET	G5	G6	GX	HO	JB

Effective January 1, 2020, MVP will be removing the global edit claims override. Claims billed with these modifier's in the first position will be subject to the global edits and will not be reimbursed.
