News for Providers

Medicare Postoperative Eyewear Services

MVP recently identified a system configuration error that caused some covered Medicare postoperative eyewear services to deny in error. The HCPCS codes affected are “carrier discretion” codes per HCPCS guidance. We have corrected this issue and our system was updated on 3/11/16. Reporting has been run to identify services denied in error, claims are being reprocessed. There is no need for your office to resubmit corrected claims.

MVP will continue to deny the following codes as “not covered under health plan” when billed with post-operative diagnoses: V2025; V2702; V2787, V2788, V2199, V2299, V2399, V2499, V2599, V2799, V2756, V2760, V2770, V2780, V2781, V2786, V2797, V2700, V2710, V2715, V2718, and V2730.

If you have any questions with respect to this notice, please contact your Professional Relations Representative.
