Billing for Flu and Pneumococcal Vaccines

As a reminder, effective January 1, 2016, MVP began requiring providers to use the G0008 and G0009 when billing for the administration of the Flu and Pneumococcal Vaccine. Use of these codes will insure that benefits and co-pays are administered properly for these services. As a result, the following G-codes should be billed for all claims with a date of service after 1/1/16:

Code	Description	ICD-10 Diagnosis
G0008	Flu Vaccine Administration	Z23
G0009	Pneumococcal Vaccine Administration	Z23

For the vaccine, bill the appropriate CPT or HCPCS code as required by CMS for all products. Please note that CPT code 90658 is not reimbursable, claim should be submitted using the appropriate Q code as designated by CMS.

Questions? Please contact the Customer Care Center for Provider Services. Representatives are available weekdays from 8:30 a.m. – 5:00 p.m. Eastern Time at 1-800-684-9286.
