

Notice of discontinue of provider bonus incentives

As you know MVP Health Care® (MVP) is dedicated to offering quality care for our members. MVP also understands that managing information can lead to better health outcomes and that this takes time and effort. That effort has driven us to look at our current quality initiatives and evaluate their effectiveness. During this evaluation, we have decided that as of **7/1/2018** will be discontinuing three of our current claims based incentives. However we will be working on creating a brand new incentive program that more effectively supports our mission for high quality standards.

The incentives that will be discontinued as of **7/1/2018** are as follows:

- **Cervical Cancer Screening**
 - Payment for this measure is \$50 for obtaining a PAP specimen. It is reported and paid following the visit.
- **Chlamydia Screening**
 - Payment for this measure is \$8 for obtaining a specimen for Chlamydia screening. The bonus is reported and paid following the visit.
- **Appropriate Use of Antibiotics**
 - This measure pays \$15 to counsel patients with acute URI, bronchitis, or non-stop pharyngitis.

Thank you for your cooperation. If there are any questions, please feel free to contact your provider representative.

Questions? Please contact the Customer Care Center for Provider Services. Representatives are available weekdays from 8:30 a.m. – 5:00 p.m. Eastern Time at 1-800-684-9286.
