## 2017 HEDIS CODING REFERENCE GUIDES

MVP Health Care<sup>®</sup> has created reference guidelines that may provide you and your staff with helpful tools that explain HEDIS measures as well as providing the CPT, HCPCS and ICD-10 codes that count towards the completion of these measures.

You will find these coding reference guides by going to **[mvphealthcare.com](http://mvphealthcare.com)**, selecting the *Provider* drop-down, and then selecting the *Quality Programs* and the *Reference Library* sections.

The Behavioral Health Guide will also be available on our website in the next couple of weeks.

**If you have any questions with respect to this notice, please contact Mike Farina at 518-388-2463 or email at [mfarina@mvphealthcare.com](mailto:mfarina@mvphealthcare.com).**
